Subject: Nigerian - Cargo Tracking Note: Update:

A.E.S., Inc has been working to accumulate all available information on the Nigerian Regulations for requiring a Cargo Tracking Note (CTN) for all imports, and is pleased to offer the following guidance:

- CIS has added compliance information, a procedure page, and a blank excel master to their website: www.africactn.com. Please visit the site to get going.

- CIS will accept an "incomplete" master (no B/L # and no load date) in the earliest (booking) stage of a shipment. Upon receiving, from the shipper/or shippers designated party, a numbered invoice is generated. It is important to maintain this invoice # because it is the reference needed when invoice is paid, a "completed" (B/L # and load date) master is later sent for CTN # issue, and CTN Certificate (four page colored document) is issued/mailed.

- We have been informed that no cargo will be released to consignees in Nigeria unless a CTN certificate is accompanying the B/L.

- Early compliance is critical to avoiding delivery delays and accumulating storage charges in Nigeria. The regulation has placed enforcement and monetary fine action on the Carrier.

Approximate costs are:

Cars/Suvs \$371.00 per CTN + \$15.00 FedEx fee + \$160 for each additional unit on the B/L after the first vehicle

Trucks/High Heavy: \$451.00 per CTN + \$15.00 FedEx fee + \$240.00 for each additional unit on the B/L after the first unit

**** Please note if you have a truck/trailer combo or high heavy machinery with a blade separate you will be billed \$451.00 + \$15.00 + \$240 for an additional unit****

-20' Containers: Cars/Suvs \$371.00 per CTN + \$15.00 FedEx fee.

-40' Containers: Cars/Suvs \$451.00 per CTN + \$15.00 FedEx fee + \$240 for each additional container listed on the Bill of Lading.

We can put more than one unit on a bill of lading as long as it is going to the same consignee and it is sailing out of the same port of load and vessel.

Please note rates are subject to change without notification. If you have any questions regarding this please advise

On behalf of AES, we would like to thank you for all your continued support.
